

Pakistani bridal fitting checklist

Use one sheet per outfit. Bring the complete look, mark only what you have checked, and record open decisions before collection.

ESSENTIAL DETAILS / WHAT CAN STAY FLEXIBLE	

01 Bring the complete look

- ☐ Actual shoes and underlayers; note any temporary substitutes.
- ☐ Jewellery, hairstyle plan and intended dupatta arrangement.
- ☐ A small reference sheet: silhouette, coverage and details you value.

02 Check fit and movement together

- ☐ Check the neckline with jewellery, and sleeves with wrist accessories.
- ☐ Agree length and coverage while wearing the actual shoes.
- ☐ Sit, stand, walk and turn; note comfort, closures and coverage.
- ☐ Rehearse the entrance, steps and any planned handheld items.
- ☐ Check the dupatta from front, side and back, including while seated.

Ask the maker and stylist to agree suitable fastening points. Change an impractical movement or shot rather than forcing the outfit or wearer.

Approve & hand over

Record a specific change for each concern. Agree who will act, any additional cost and when the result will be checked.

03 Keep one alteration record

05 Collection and event-day handover

- ☐ Repeat the complete-look and movement checks after alterations.
- ☐ Confirm every garment and accessory is included; retain care instructions.
- ☐ Pack each look with its approved photos and accessory list.
- ☐ Confirm dressing space, helper, travel cover and approved supplies.
- ☐ Agree who collects every piece after changing or leaving the venue.
